

# Outdoor Living

## Get the look

I've tried to cover a few different areas of outdoor living here. Dining, lounging and relaxing. As per normal I've used a variety of sourcing options, no matter the budget I can find something that will work for you. I've opted for a round dining table as that's quite a versatile shape, I love the woven base on this table, which ties in with the woven lounge chairs and sun lounger. These are all outdoor items so they are suitable for outdoor use (this is key, especially if you are investing, as you want something that will last). I've added some colour in the dining chairs, in a gorgeous pale blue in a classic shape. I've also added colour with the bar cart trolley, and side table. This trolley is such a versatile item, when entertaining it can hold drinks or use as a coffee table, stack with extra towels if by pool, so many options. The lounge area I've defined the area with a outdoor rug. I added these gorgeous woven whicker chairs, the perfect spot for a G&T with the Neighbour! Finally the relaxing spot, whether its by the pool or in a shady spot in the back garden this sun lounger is such a cool sculpture piece with so much function too! Add a side table for a book and drink and a fun umbrella for shade. As like inside, adding plants and some greenery goes a long way, I love the rustic look of these pots, they look so good with some lush green plants. Now sit back and enjoy your Summer!

Nic x

## Sourcing
